No.	Image	Title	Author	Judges comments on each image
1		<b>Greeting the Dawn</b>	<b>Derek Trendell ARPS</b>	Pleasant with strong silhouette. Would have liked a bit more separation between tree and animal.
2		<b>Teeth of a Predator - Wild Dog</b>	<b>Colin Fieldgate</b>	Good strong close up of the teeth. Thought subject was a bit tight in the frame.
3		<b>Breakfast in Madikwe</b>	<b>Richard Wheeler</b>	Strong image taken under harsh light. Subject a bit tight in the frame.
4		<b>Leopard with remains of kill</b>	<b>Alan West</b>	Majestic! Technically very good with subject set off well against the blue sky.
5		<b>Lounging Lioness</b>	<b>Brian Howe</b>	Wonderful! Very strong, technically faultless image. Even has catch light in eye.

**Judges comment on the set:** Harmonious set that links well. First is more landscape, but sets the scene for the rest of the panel. The light is handled well across the panel. A strong set.
